

On Tuesday 26th September all of the Year 3's went to the 7AS World Cup Rugby festival for a fun day of learning rugby skills and playing mini tag rugby games. The children really enjoyed learning the key skills needed in rugby which they then put into practice by playing mini competitive games against the other 7AS schools.

On Monday 2nd October each class from Year R up to Year 6 were involved with Skipping workshops -learning new skills and having a lot of skipping fun. Each class worked on different skipping skills- from learning to jump over the rope in Year R to Double Dutch skipping in Years 5 and 6. At the end of the afternoon the school then joined together as a whole to showcase some of the skills they had learnt throughout the day.
