Hail, Hail, the Zero-Tail!

Instructions

Aim

The aim of the game is to identify numbers which, when added together, make a 'Zero-Tail' (a number ending in a zero). The winner is the player who has the most coloured cells in a row when the teacher calls, "Game over!"

Players

2

Equipment

1 x game sheet (this could be laminated for repeated use)
1 x whiteboard marker/pencil for each player (each a different colour)
2 x dice

How to Play

1. Players roll a dice to determine who will go first. The player who rolls the highest number becomes Player 1.
2. Player 1 rolls both dice, then nominates which two-digit number they will form e.g. if they throw a 5 and a 2, they can choose the number to be 52 or 25.
3. Player 1 scans the game sheet to see if they can find a number which, when added to their two-digit number, will make a Zero-Tail (a number which ends in a 0). If they can, they colour in that cell. If they cannot, they must wait until their next turn to try again.
4. Play then moves to Player 2 and the process outlined in the above steps is repeated.
5. Play continues until the teacher calls, "Game over!" The winner is the player who has the most coloured cells in a row (rows may be vertical, horizontal or diagonal).

Coordinates – Missing Items

The park map is missing some items. Follow the directions and colour the pathway as you go. Colour each pathway a different colour. At the end, draw the object in the box you end up in.

	N1, N3, L3, L7, J7
	N1, H1, H5, C5, C3
	N1, O1, O6, H6, H8
	N1, N7, G7, D7, D10

Why don't you create your own park in a grid like this one and add paths, objects and ask someone to give you the coordinates of each object. Would could you include?

My Best Day!

Sam was asked by his teacher to think about a day he had really enjoyed. Sam chose the day he and his grandad went fishing.

Task

Your task is to write about your best day. (You could write about a day on holiday, a birthday, a special event in school or at home.) It could be any day you choose.

My Best Day!

What day did you choose?

I chose

What did you do?

How did you feel?

Life-Cycle of a Frog

Some children have been looking at frogs in their garden pond. Look at the pictures of what they have seen.

1 The frog lays spawn (eggs).

2 Tadpoles grow inside the eggs.

3 Tadpoles with tails hatch out of the eggs.

4 The tadpole grows back legs.

5 The tadpole grows front legs.

6 The tail disappears. It is now a young frog.

Task

Your task is to write an explanation of the life-cycle of a frog.

Life-Cycle of a Frog

Look carefully at each picture. Write words to help you tell the story in each box.

PARTS OF THE
ULYSSES BUTTERFLY

Species Snapshot: Ulysses Butterfly

Remembering

Draw each stage of the Ulysses butterfly's life cycle. Write a sentence to describe each picture.

Understanding

In your own words, compare the life cycles of a butterfly and a human. How are they different?

Applying

Think of another type of insect. Make a list of ways that insect's life cycle is like a butterfly's life cycle.

Analysing

Look at the parts of the butterfly. What parts are exactly the same on both sides (symmetrical)? Compare your hands. Can you write with both hands? Are they exactly the same on both sides?

Evaluating

Imagine you are a Ulysses butterfly. What would your day be like? What would you most enjoy doing?

Creating

Make a symmetrical butterfly painting and label the parts.

Crazy Hair Line Drawing

TASK

Create a portrait of someone with crazy hair by experimenting with different types of lines.

MATERIALS

a lead pencil, white card, a black marker, oil pastels or crayons

DIRECTIONS

1. Draw a person's face with a lead pencil on the bottom half of the white card.
2. Draw a variety of different lines (curly, straight, wavy) from the person's head to the top and side edges of the page.
3. Once you are happy with your design, trace over the lead pencil with a black marker.
4. Add colour to the crazy hair.

Patterned Hand Art

TASK

Create an abstract artwork by tracing your hand and experimenting with line.

MATERIALS

a lead pencil, coloured card, a black marker

DIRECTIONS

1. Trace your hand onto the coloured card with a lead pencil.
2. Make sure you have some of your wrist on the page.
3. Draw 6 wavy lines horizontally, vertically and diagonally across the page.
4. In each section on your hand, experiment with different line patterns.
5. Once you are happy with your design, use a black marker to trace over your patterns.
